Memo for orders.

Reference:- Letter No.416 dated the 22nd.November 1901 from the President, City Municipality, Mysore, submitting for sanction an estimate for Rs.4,533/- for construct-ing tunnels in the "Jalapuri Extension" of the Mysore City.

The formation of new extensions* in the Mysore City was sanctioned by Government in Pro. No. Pg.343-8 dated the 11th October 1900 and a sum of Rs.9231-7-0 was allotted* from Plague Funds for payment of compensation for 73 acres and 27 guntas of land acquired for the said extensions; the Chief Engineer was requested at the same time to instruct the Executive Engineer, Mysore Dn., to undertake the work of laying out the grounds for houses &c. in the said extensions.

2. The President, Mysore City Municipality,* reports that house building in the Jalapuri extn. is making rapid progress, that the Executive Engr. has not yet attended to the formation of roads, construct-ion of tunnels and other drainage ~~schems~~ works; and he therefore submits for sanction from Provincial Funds an estimate

estimate for Rs.4333/- for the ~~same~~ formation of Roads & Construction of tunnels.

3. A sum of Rs.1,98,511/- was sanctioned at different times as a loan to the Mysore City Municipality with special reference to the opening out of the congested parts of the city, the demolition of condemned ~~of~~ houses and the construction of "V" shaped drains and for the sanitary improvements of the Mysore City generally.

	Total	198511

4. These papers were submitted to the 1st. Councillor for orders as to ~~from what funds the~~ the source from which the cost of the works under reference should be met with.

5. The 1st Councillor is of opinion that "it is not a charge on the plague funds" and that application should be made "in the Extension Branch".

6. As the amounts already sanctioned were ~~only~~ for payment of compensation for lands acquired for the formations of the extensions in question and for making ~~the~~ sanitary improvements in the city, and as moreover there is no balance left out of the aggregate sum of Rs.1,98,511/- referred to above, the present application for Rs.4,533/- for the construction of tunnels &c. in the Malagurki Extn. has ~~therefore~~ to be sanctioned as an additional allotment.

Subd to Secty for orders.

I do not see of what use a Sanitary Branch as well as the Extension Branch — when I Branch must be dealt with in this Secretariat Department which deals with all Municipal matters.

SIR,

With reference to your docket No.11699/L.B.(P) 1334 dated 16th instant, I have the honour to return the estimate of Rs.4,533 therewith received for constructing tunnels in the Jalapuri Extension of Mysore City with the following remarks.

2. The estimate, as now corrected, amounts to Rs.6,177 and excess, Rs.1,644 is due to provision having been now made for "lowering the road by 1½ feet, which item has been entirely omitted by the Municipal Engineer. A rate of Re 0-2-0 per c.yd. has been allowed for this item, but if the earth has to be removed to a distant place, this rate will have to be increased according to lead.

3. Gravelling over tunnel has been allowed for a width of only 5 feet which is the width of covering slab, but it would be better to provide gravelling for at least 9 feet, the earthwork excavation itself being 7 feet, in width. Further, the ends of slabs over side walls will require some kind of backing so as to keep the slabs in position--vide sketch on the estimate.
